# TECHNOLOGIES MASTERED

| Technology | Use Case | Advantages | Disadvantages |
|---|---|---|---|
| Flutter | Cross-platform Mobile Apps | High Performance, Rich UI widgets, Single codebase | Steeper learning curve (Dart) |
| React Native | Cross-platform Mobile Apps | Large Community, JavaScript based, Flexible | Slightly lower performance than Flutter |
| Java | Native Android Apps | Full control, Access to all Android features | Separate codebase for iOS |
| HTML/CSS/JS | Websites | Fundamental building blocks, Widely supported | Limited interactivity without JavaScript |
| Node.js | Web Servers, Real-time Apps | JavaScript outside browser, Large ecosystem | Primarily for server-side development |
| Python | Web Development, Data Science, Scripting | Easy to learn, Readable code | Can be slower than compiled languages for complex tasks |
